Hi, Jake!

Great to hear from you! As you know I did take part in a similar cultural exchange project last year. and it was a really valuable and profitable experience for me.

I learned a lot about other cultures. especially how people live, communicate and even solve problems in everyday situations. It helped me become more open-minded and much more confident in practising my English. My teamwork and communication skills are also improved.

I definitely think it is a good idea for you to join the exchange week. It's a great opportunity to practise English in real-life situations and make new friends.

As for staying with a host family, it is completely normal to feel nervous. Be open, polite and curious. Don't be afraid of asking questions. Host families are usually welcoming and show strong enthusiasm to provide assistance.

If you want I can share more tips what to expect.

Best wishes

Bestakoz

Headphones - the best and important thing. It helps for relax and enjoying music, and you can hear the podcast or more loudly. I chose them because I everytime use them on the run in a car and I think most people needed that.

Headphones had big affect on me and daily routine, I wake up early and wore headphones, open "Spotify" and starting doing exercises, after exercise I go to school in that time listen I often listen podcast about study, motivation, and people who archived dreams. It's really help me to grow up there for sure it give me big affects.

Headphones have alot of advantages I was say it, However headphones have also disadvantages like If you spend more to much time for listening music it's become harmful for health. As the cost for headphones is cheap as a cheap but the quality is quickly broke. As a (absolutely) good quality is very expensive it's expensive some phones for inslince.

The most useful thing or skills can learn teenager, or student is to learn english. That's the most beneficial language for our future, but not everybody can learn it. It takes a large of times, disciplines, and hard actions on brain. This language can open the doors to your big dreams; also can help to you speak to other foreign peoples (native speakers) without any difficulties. For example, i want to go to the USA, and to live there, study there, it is my large dream so i will be to dose all the materials, life hacks how to speak fluently in english. And to travel all of the world, cities, lands. So to achieve to this goal we do not ~~not~~ give up guys, all that difficulties had finished if we continuous our goal, and follow the good way. Dreams makes us harder. That is my opinion.

However, many people think about one of the most useful skill a teenager can learn today. I'll be say it's education. In my opinion teenagers in 21st century become more smarter, more creativity. This essay will explain what teenagers learned today.

Firstly, teenagers knowed many new technologies, AI's. As a result they become genius. One reason is that, teenagers at 2025 Focused them from any skills. Another reason is that, teenagers today make many programs. For example, I created new ^{puts} program for me in the AI - Chat GPT. That's really comfortable for me.

I Believe that teenagers today much smarter than 1900s. Therefore teenagers today studying strong and never Forget the them Future.

IV Writing Topic A

Today the most useful skill a teenager can learn ~~today~~ is play sports. Sport, yoga and exercises very important for our health. If we wake up early and do exercise or play sports, run every day, we would be powerful and healthy. In second hand most useful skill is read quickly. Because, its very important for our brains and help to be intelligence and smart. I am every day read books, newspapers, magazines and etc. It is really help to be smart and its very interesting for me. Nowadays teenagers are very ~~today~~ lazy and they spend a lot time for play computer games or society. Its very dangerous for them ^{self} future. I want in the future only smart people can live in earth. Because in the future all people use the new technology, but if we don't have skills, we don't use them. In the summer I learned to swim in the pool, Its help me to be healthy. If we really ~~try~~ try to learn something, Its really will be easy-peasy. And I think every ~~help~~ people have skills and talent, and we must develop our skills.

I had never expected the school trip to end like this. One week before this situation a teacher told us that we are going to school trip with whole class and asked to give her money for this trip. She said that going to the trip costs two thousand tenge. I asked my parents can I go to the trip, they said yes. I waited for 18 January, on that day we have gone to the trip.

We started to pack snacks, drinks and sweets. I was so worried because it was my first trip. The teacher said come to school at 9 o'clock after that we are going to go to the trip. Bus came at 9:30 and we all sat to the bus. Driver started to drive. I slept all the way to Koksai. We stopped and left the bus. Nature of Koksai is very beautiful. We have a lot of fun here with my classmates.

In conclusion going to trip with classmates is very existing thing that I've seen before.

The object that I use every day is my smart phone. I can say that I can't live without phone, not only me, To my mind people, especially teenagers can't live without phone. Because, nowadays technology is improved. So, we can get any informations quickly and we can connected with people who live far away from us. Today, we can learn any skills from the Internet. For instance, we can improve ourselves and I also use smart phone to study English. But there is have any advantages and disadvantages. For example, if we spend too much time on smart phone, it can be bad for our health, especially for our eyes. And if we use only smart assistants, we can be more lazier, we don't want to search informations by ourself's and we use the quick and easy ways to search informations. Also, people can be obsessed with smart phone. So, that's all. If we use smart phone on good ways, it can not be worse. I don't recommend it because in my opinion the all people in the world know about phone.
